SYMBIOSIS INTERNATIONAL (DEEMED UNIVERSITY)
(Established under Section 3 of the UGC Act, 1956 I Re-accredited by NAAC with 'A++ Grade I Awarded Category - I by UGC

VISION

Promoting International understanding through quality education

MISSION

- To inculcate spirit of 'Vasudhaiva Kutumbakam' (the world is one family)
- To contribute towards knowledge generation and dissemination
- To promote ethical and value-based learning
- To foster the spirit of national development
- To inculcate cross cultural sensitization
- To develop global competencies amongst students
- To nurture creativity and encourage entrepreneurship
- To enhance employability and contribute to human resource development
- To promote health and wellness amongst students, staff and community
- To instil sensitivity amongst the youth towards the community and environment
- To produce thought provoking leaders for the society

NURTURING THOUGHT LEADERS

ABOUT SYMBIOSIS INTERNATIONAL UNIVERSITY (SIU)

Every remarkable journey begins with a defining moment. For Symbiosis, that moment emerged from a simple act of compassion that transformed into a vision for an institution dedicated to education, inclusivity, and global understanding.

The story dates back to the early years of Dr. S. B. Mujumdar, Founder and President of Symbiosis, when he served as the rector of a student hostel. One afternoon, he noticed a young woman repeatedly passing a lunchbox through the window of a boys' hostel room. Assuming it to be a disciplinary concern, he decided to investigate. To his surprise, he found an international student from Mauritius bedridden with jaundice, too weak to walk to the dining hall. Since women were not permitted inside the hostel, a fellow student from his home country had been delivering meals through the window each day.

The incident deeply moved Dr. Mujumdar. What appeared to be a breach of hostel rules was, in reality, an act of kindness born out of necessity. Recognising the difficulties faced by international students living far from home, he resolved to create an institution that would provide them with not only academic opportunities but also care, support, and a sense of belonging. This compassionate vision laid the foundation for Symbiosis.

The name Symbiosis, borrowed from biology, signifies a mutually beneficial relationship between different living organisms. As a professor of Botany, Dr. Mujumdar believed the concept perfectly reflected the institution's philosophy of bringing together students from diverse cultures to learn, grow, and thrive together.

Established with the objective of supporting international students in India, Symbiosis initially focused on addressing practical challenges such as accommodation, healthcare, meals, counselling, and guidance. Over the decades, it has evolved into one of India's leading multidisciplinary educational institutions, welcoming students from over 85 countries while remaining rooted in its guiding philosophy of "Vasudhaiva Kutumbakam" - The World is One Family.

ABOUT SYMBIOSIS SCHOOL OF ECONOMICS

Established in 2008, the Symbiosis School of Economics (SSE) at Senapati Bapat Road, Pune, is a constituent of Symbiosis International (Deemed University) and has rapidly earned recognition as one of India's leading institutions for Economics.

Designed to meet the growing demand for economists equipped with strong analytical and quantitative skills, SSE offers undergraduate, postgraduate, and doctoral programmes that integrate economics with finance, mathematics, statistics, public policy, and data analytics.

SSE is committed to developing critical thinkers capable of addressing complex economic challenges through evidence-based analysis and informed decision-making. Its curriculum combines theoretical foundations with practical applications, encouraging students to engage in research, internships, policy discussions, and interdisciplinary learning. With an emphasis on academic excellence, innovation, and intellectual freedom, the institution nurtures professionals prepared for careers in finance, consulting, public policy, research, analytics, and international organisations.

Today, the legacy envisioned by Dr. S. B. Mujumdar continues to flourish through institutions like the Symbiosis School of Economics, where students from diverse backgrounds come together in pursuit of knowledge, innovation, and excellence.

Guided by the founding ideals of empathy, inclusivity, and quality education, Symbiosis remains committed to creating responsible global citizens who are equipped to make meaningful contributions to society.

CHANCELLOR'S MESSAGE

"Symbiosis School of Economics nurtures globally competent, analytical, and socially responsible professionals, empowering students to create meaningful impact through placements, internships, research, and industry partnerships."

It gives me immense pleasure to present the students of the Symbiosis School of Economics to the distinguished members of the corporate and development sectors.

At Symbiosis International (Deemed University), we believe that education must prepare young people not only for successful careers but also for responsible participation in an increasingly interconnected world. Our academic environment brings together students from diverse geographical, cultural, and socioeconomic backgrounds, enabling them to develop intellectual openness, adaptability, empathy, and a genuinely global outlook.

The Symbiosis School of Economics nurtures students who can examine complex economic and social challenges with analytical rigour and sensitivity. Through a carefully designed curriculum, research-oriented learning, practical assignments, internships, field exposure, and interaction with experts, students acquire a strong grounding in economic theory, quantitative methods, data analysis, public policy, and contemporary economic issues. Equally important, they learn to communicate effectively, work collaboratively, and approach professional responsibilities with integrity.

In a rapidly changing economy, organisations require professionals who can understand evidence, interpret emerging trends, and contribute to informed and sustainable decision-making. I am confident that our students possess the curiosity, discipline, and commitment required to add meaningful value to your organisations.

I warmly invite recruiters to engage with the Symbiosis School of Economics, interact with our students, and explore opportunities for recruitment, internships, live projects, research collaborations, and long-term institutional partnerships. Your association will provide our students with valuable professional opportunities while enabling your organisation to access a diverse and capable pool of emerging talent.

Dr. VIDYA YERAVDEKAR
Chancellor

VICE CHANCELLOR'S MESSAGE

> *"The economists of tomorrow will not simply interpret markets; they will harness data, technology, and human insight to shape better decisions, stronger organisations, and a more sustainable future."*

The global economy is undergoing a profound transformation. Advances in artificial intelligence, digital technologies, sustainability, and data-driven decision-making are redefining industries and creating new expectations from young professionals. Employers today seek graduates who possess not only strong academic foundations but also analytical thinking, technological proficiency, adaptability, ethical values, and the ability to solve complex real-world problems.

The Symbiosis School of Economics (SSE) has consistently nurtured such professionals through a curriculum that combines academic rigour with practical relevance. Our programme provides students with a strong grounding in economics, econometrics, statistics, quantitative techniques, finance, public policy, research methodology, and development studies. Classroom learning is complemented by internships, live projects, research, case discussions, fieldwork, and industry interactions that prepare students to perform effectively in diverse professional environments.

Recognising the changing nature of work, SSE has also embraced emerging technologies as an integral part of learning. Students are encouraged to responsibly leverage artificial intelligence and advanced digital tools for research, data analytics, forecasting, policy analysis, visualisation, and evidence-based decision-making. This exposure enables them to appreciate both the transformative potential of technology and the ethical responsibilities that accompany its use.

An economist today must do far more than interpret numbers. They must understand markets, anticipate change, evaluate policy, communicate insights, and contribute to strategic decisions that shape organisations and societies. At SSE, our students are trained to think critically, question assumptions, analyse data with precision, and develop solutions grounded in sound economic reasoning.

Our graduates are well-equipped to contribute across consulting, banking and financial services, economic and business analytics, public policy, research organisations, technology enterprises, development institutions, market intelligence, corporate strategy, and the expanding digital economy.

We value our recruiters as partners in this journey. Their insights help us continuously strengthen our academic programmes and ensure that our graduates remain aligned with evolving industry expectations. I warmly invite your organisation to engage with the Symbiosis School of Economics through campus recruitment, internships, live projects, mentoring, expert lectures, and collaborative initiatives.

I am confident that our students will bring intellectual curiosity, quantitative excellence, digital readiness, professional integrity, and a commitment to continuous learning to every organisation they join.

Dr. RAMAKRISHNAN RAMAN

Vice - Chancellor

DIRECTOR'S MESSAGE

> *“It gives me immense pleasure to introduce the graduating Batch of 2027 from Symbiosis School of Economics future-ready, industry-oriented professionals equipped with strong analytical skills, practical experience, ethical values, and a global outlook.”*

It gives me immense pleasure to introduce you to the graduating batches of 2027. I am proud to share that SSE now offers a wide range of specializations across two programmes. At the postgraduate level, students can specialize in Finance, Data Science, International Trade, Development Studies, and Urban Development. At the undergraduate level, the specializations include Finance, Artificial Intelligence, Development Policies, and Entrepreneurship. Our alumni strength has grown to more than 3,000+ reflecting SSE’s strong academic legacy and expanding professional network. At SSE, we emphasize the enhancement of practical and applied skills through internships, research, and consultancy projects. We always strive towards creating equilibrium. Our pedagogy integrates classroom teaching, simulations, mentoring, peer learning, and experiential learning. These approaches not only promote lifelong learning but also help students develop communication and presentation skills, healthy competitiveness, adaptability, and the ability to manage multiple tasks and deadlines.

In an era of continuous learning and rapid technological advancement, it is our endeavour to prepare students for a VUCA world. Through high-quality education, an ever-evolving curriculum, and a commitment to keeping pace with changing times, SSE ensures that the Symbiosis stamp of excellence is reflected in all our students. The faculty at SSE has been consistently working towards empowering students for a future that includes both traditional career paths and emerging roles aligned with the growth of the creative economy. Student-driven events such as Economist of the Year (EOTY) and the annual fest Niverve foster innovation, leadership, and entrepreneurship. We also focus on providing value-based education that embeds ethical considerations and humanitarian values.

Our diverse student body ensures that students are exposed to multiple cultures, perspectives, and ways of thinking. We believe that our graduates will become pragmatic professionals, critical analysts, competent decision-makers, and policymakers, while also remaining sensitive individuals equipped with a 21st-century skill set. It is my privilege to invite you to participate in SSE’s Campus Recruitment. We look forward to a mutually beneficial and long-term collaborative relationship.

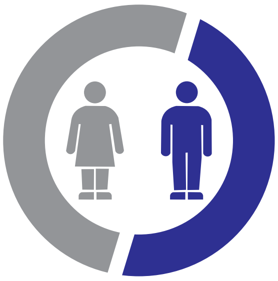
Dr. JYOTI CHANDIRAMANI
Director

BATCH SNAPSHOT

B.Sc. ECONOMICS (BATCH 2023-27)

GENDER DIVERSITY

Female : 63



Male : 51

Total Batch : 113

MINORS

- BUSINESS ENTREPRENEURSHIP 17
- DATA ANALYTICS 44
- FINANCE 52

B.Sc. ECONOMICS (BATCH 2024-28)

GENDER DIVERSITY

Female : 107

Male : 86

Total Batch : 193

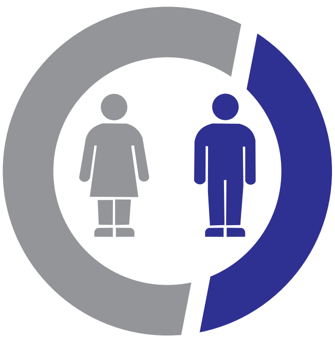
MINORS

- ARTIFICIAL INTELLIGENCE (AI) 23
- FINANCE 95
- ENTREPRENEURSHIP 34
- DEVELOPMENT POLICIES 41

M.Sc. ECONOMICS (BATCH 2025-27)

GENDER DIVERSITY

Female : 89



Male : 46

Total Batch : 135

MINORS

- URBAN DEVELOPMENT 17
- DEVELOPMENT STUDIES 17
- INTERNATIONAL TRADE 35
- FINANCE 40
- DATA ANALYTICS 26

B.Sc. PROGRAM STRUCTURE

COURSE OVERVIEW

The B.Sc. Economics programme offers a rigorous and multidisciplinary study of economics, combining theoretical foundations with quantitative methods, analytical tools and applied learning. The curriculum progresses from fundamental concepts in economics, mathematics and statistics to advanced coursework in econometrics, development, finance, public policy and international economics. Alongside the Economics major, students gain exposure to technology, data analysis, entrepreneurship, finance and social sciences through minor courses, while internships, multidisciplinary courses and research components provide opportunities to apply classroom learning to real-world contexts. The Honours and Honours with Research pathways further allow students to pursue advanced disciplinary study and independent research in the final year.

SEMESTER 1

- Principles of Economics
- Foundation of Mathematics
- Mathematical Economics I
- Indian Constitution
- Foundations of Ethics
- Academic Writing with LaTeX
- IT Applications in Economics
- Indian Kaleidoscope - Culture and Communication
- Integrated Disaster Management

SEMESTER 2

- Microeconomics I
- Macroeconomics I
- Mathematical Economics II
- Statistics for Economics I
- Basic French / German / Spanish / Sanskrit I
- Introduction to Python
- Indian Ethics and Values for Management
- Fundamentals of Environmental, Social and Governance (ESG)
- Health and Wellness Module I
- Advanced Excel
- Statistical Analysis using SPSS

SEMESTER 3

- Microeconomics II
- Macroeconomics II
- Business Accounting and Financial Analysis
- Mathematical Economics
- Statistics for Economics II
- Basic French / German / Spanish / Sanskrit II
- Data Visualization
- Introduction to DBMS and SQL Programming
- NGO Internship
- Emotional Well-being
- Introduction to the Indian Epics: Ramayana and Mahabharata
- Health and Wellness Module II

SEMESTER 4

- Introductory Econometrics
- Research Methodology
- International Economics
- Operations Research
- Public Finance: Theory and Practice
- Theory of Political Economy in India
- Economic Journalism
- Vasudhaiva Kutumbakam
- Introduction to FinTech
- Game Theory

SEMESTER 5

- Intermediate Econometrics
- History of Economic Thought
- Introduction to Behavioural Economics and Finance
- Indian Economy
- Introduction to Machine Learning in Economics
- Deep Learning for Economics
- Business Unit Internship
- Core Environmental Studies
- Economic Journalism
- Contemporary Business Environment

SEMESTER 6

- Environmental Economics
- Development Economics
- Growth Models
- Public Finance: Theory and Practice
- Primary and Secondary Research
- R Programming
- Fundamentals of Cyber Security
- Financial Management
- Taxation
- Development Experiences

SEMESTER 7

HONOURS / HONOURS WITH RESEARCH

- International Relations
- Advanced Microeconomics
- Advanced Macroeconomics

SEMESTER 8

HONOURS / HONOURS WITH RESEARCH

- Agricultural Economics
- Industrial Economics
- Law and Economics
- Research Project / Dissertation

MINOR SPECIALISATIONS

FINANCE

- Management Accounting
- Introduction to Corporate Finance
- Financial Management
- International Banking and Financial System
- International Financial Markets
- International Financial Management
- Security Analysis and Portfolio Management
- Taxation

ARTIFICIAL INTELLIGENCE / DATA ANALYTICS

- Data Architecture & Warehousing
- Introduction to Data Mining
- Big Data
- Introduction to Artificial Intelligence in Economics
- Introduction to Machine Learning in Economics
- Deep Learning for Economics
- AI for Social Sciences
- R Programming

BUSINESS ENTREPRENEURSHIP

- Social Entrepreneurship
- Corporate Entrepreneurship
- Entrepreneurial Project Management
- Entrepreneurial Management
- Business Modelling and Business Plan
- Contemporary Business Environment

DEVELOPMENT POLICIES / SOCIAL SCIENCES

- Development Experiences
- Labour Economics
- Gender Economics
- Health Economics
- Public Policy and Administration in India
- Principle of Sociology
- Sustainability Studies

M.Sc. PROGRAM STRUCTURE

COURSE OVERVIEW

The M.Sc. Economics program follows an interdisciplinary curriculum, which seeks to develop intellectual discipline, critical and analytical thinking among our students. A rigorous and relevant curriculum catering to the needs of the dynamic nature of the global market ensures overall growth of our students. Students are evaluated based on various assessments in the form of projects, term papers and research papers. Students are encouraged to undertake guided research through the Centre for Academic Writing, the Centre for Quantitative Learning and Applications, the Symbiosis Centre for Urban Studies, and the Behavioral & Experimental Economics Cell.

FIRST YEAR

During the first year of the program the students are given an understanding about the basics of Economics, including the training in the application and quantitative based subjects like Mathematical Economics and Econometrics analysis. Along with the theoretical and quantitative packed subjects, we train them in the Research Methodologies through various courses, assignments and applications.

SEMESTER 1

- Mathematical Economics
- Advanced Microeconomics I
- Advanced Macroeconomics I
- Advanced Econometrics I
- Research Methodology and Software Package I
- Public Economics
- Environment and Climate Change

SEMESTER 2

- Growth and Development
- Advanced Microeconomics II
- Advanced Macroeconomics II
- Advanced Econometrics II
- Game Theory
- Research Methodology and Software Package II

FINANCE

SEMESTER 3

- Security Analysis and
- Portfolio Management
- Financial Economics
- Derivatives Markets
- Financial Modelling

SEMESTER 4

- Financial Risk Management
- Insurance Management
- Behavioral Finance
- Corporate Valuation
- Project & Infrastructure Finance

DATA ANALYTICS

SEMESTER 3

- Big Data Analytics
- Python for Data Science
- Data Analysis and Visualization
- Data Mining
- Financial Analytics
- Exploratory Data Analysis Lab

SEMESTER 4

6 Month Corporate Internship

INTERNATIONAL TRADE

SEMESTER 3

- Pure Theory of Trade
- International Trade Policy
- Open Macroeconomics
- International Political Economy and Trade

SEMESTER 4

- Multinational Trade: Procedures and Laws
- International Organizations and Regional Cooperation in Trade
- International Capital Market and Finance
- Trade Finance

URBAN DEVELOPMENT

SEMESTER 3

- Urban Governance
- Urban Demography
- Urban Land Economics
- Urban Planning and Development
- GIS & Problem solving in Urban India Context
- Urban Finance

SEMESTER 4

- Urban Poverty, Migration and Sustainable Livelihoods
- Urban Development Experiences
- Urban Mobility
- Urban Energy and Environment
- Urban Solid Waste Management
- Urban Water and Sanitation

DEVELOPMENT STUDIES

SEMESTER 3

- Markets and Institutional Framework of Development
- Behavioral and Experimental Economics
- Urban Economic Development
- Development Experience

SEMESTER 4

- Theories and Models of Development and Distribution
- Rural Development
- Human Development

INTERNSHIPS

- Artha India
- Airtel
- Beehive Capital
- Bhubaneswar Development Authority
- Dept. of Housing & Urban Affairs (DoHUA)
- DGFT, Ministry of Commerce
- Deloitte
- Godrej Capital
- HDFC Mutual Funds
- IDBI Bank
- IIFT (Centre for WTO Studies)
- IISER Bhopal
- IIT Bombay
- Indian Oil Corporation
- KPMG

M.Sc. DATA ANALYTICS FOURTH SEMESTER INTERNSHIP

- Atgeir, Pune
- Pro Invest Wealth, Pune
- Nangia Anderson & Co LLP, Delhi
- Bank of Maharashtra
- Kotak Mahindra Bank, Mumbai
- Vayana, Pune
- MLP, Dubai
- GJEPC
- MIDS, Chennai
- Coforge Limited
- Earnest Data Analytics Pvt. Ltd
- EY, Gurugram
- Kiya AI Navi Mumabai
- Sattva Consulting, New Delhi
- SWIS Tech Services, Pune
- EY

PAST RECRUITER DISTRIBUTION BY SECTOR

ANALYTICS

- AC Nielsen
- ACIES Consulting
- Bristlecone
- Galytix
- Glencore
- IAMAI
- OSG Analytics
- S&P Global
- SG Analytics
- State Street
- Vodafone
- Zipdial
- Zomato
- ZS Associates
- NIQ
- WNS Procurement

MARKET RESEARCH

- AIFI
- Axchem India
- CMIE
- Cuts International
- CTIER
- Expert Insight
- Global Market Estimates
- GME
- ISS STOXX
- IMRB International
- Kantar
- Ken Research
- Marketnomix
- Markets and Markets
- Planet Spark
- The Economist
- Stantec Research
- Integreon
- Zocdoc

BANKING & FINANCE

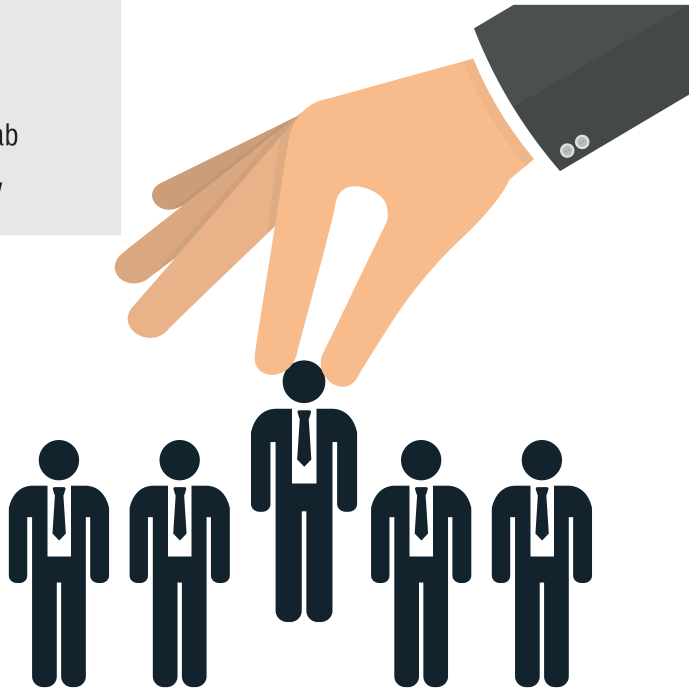
- Accenture
- Capital Line
- CapitalAim
- Citi
- D.E. Shaw
- Deloitte
- EY
- Kampani
- Kingfish Group
- Kotak Mahindra
- KPMG
- Morgan Stanley
- SSP Ltd.
- TresVista
- Financial Benchmarks India Pvt. Ltd. (FBIL)
- Nirmal Bang

ACADEMIC INSTITUTIONS & THINK TANKS

- ASCI College
- BITS School of Management
- IIM A
- IIT B
- IIT Madras
- IIHS
- IRMA
- ISEC
- Ministry of Finance
- NIPFP
- RAI
- SIU
- TISS

DEVELOPMENT SECTOR

- Arcus
- Haqdarshak
- Hyderabad Urban Lab
- India Migration Now



WHY RECRUIT US?

SSE graduates combine economic reasoning, financial acumen, quantitative expertise, and practical business exposure. Through rigorous academics, technical proficiency, and research, our students are equipped to solve complex business challenges.

ANALYTICAL & FINANCIAL FOUNDATION

- Economics, Econometrics & Finance
- Quantitative Methods & Statistics
- Excel, Python, SQL, Power BI & Stata
- Business & Policy Analytics

CORPORATE & INDUSTRY EXPOSURE

- Two Mandatory Summer Internships
- Corporate & NGO Industry Exposure
- Industry Projects & Field Learning
- Guest Lectures & Industry Interaction

APPLIED RESEARCH & INITIATIVES

- Mandatory Research Dissertation
- Primary & Secondary Research Projects
- Econometric & Statistical Modelling
- Cybage Asha Rural Development Project

GLOBAL EXPOSURE

- Benchmarked International Curriculum
- Global Exchange Programs & Linkages
- Cross-Cultural Strategic Readiness

AI PREPAREDNESS

- AI-Enabled Learning: AI, Machine Learning, Python, Big Data & Data Analytics
- Decision Intelligence: Economic Forecasting, Market & Business Strategy
- Research: Advanced Econometrics, Real-World Data & Evidence-Based Problem Solving
- Responsible AI: Ethical AI Practices, Data Privacy, Governance & Human-Centred

FLAGSHIP EVENTS

SURESH TENDULKAR MEMORIAL LECTURE

SSE's distinguished annual lecture series, instituted in honour of eminent economist Prof. Suresh D. Tendulkar. The lecture brings together renowned economists, academics, and policy experts to engage with students on pressing issues surrounding poverty, inequality, economic development, and public policy. It provides a platform for intellectual exchange and encourages students to engage with diverse perspectives on contemporary economic challenges.

ECONOMIST OF THE YEAR (EOTY)

SSE's flagship annual conclave brings together leading economists, policymakers, industry leaders, and academicians for meaningful dialogue on contemporary economic and business issues. Through keynote addresses, panel discussions, and engaging conversations, EOTY provides students with exposure to diverse perspectives from across academia, policy, and industry, fostering a deeper understanding of the forces shaping the economic and business landscape.

NIVERVE FEST

SSE's annual student festival serves as a dynamic platform for students to translate classroom learning into real-world experiences. From finance, sponsorship, and marketing to operations, logistics, and branding, students take ownership of diverse functions while working in cross-functional teams. The fest cultivates leadership, collaboration, problem-solving, and execution skills while providing hands-on exposure to the complexities of managing a large-scale student-led event.
